

Table of Contents

CHAPTER 1: PURPOSE AND NEED FOR ACTION

Introduction	1
Need for Proposed Project	5
Purpose of Proposed Project	7
Background on Property Purchase and Mitigation Requirements	7
Project Purpose and Relationship to Park Service Mission and Policies	8
Primary Project Constraints	12
Legislative and Policy Guidance and Other Considerations Used in Developing Purpose and Alternatives	13
National Park Service Legislation	14
Specific Park Legislation and Policies	14
Executive Orders	15
Other Federal Legislation	15
State and Local Legislation, Policies, and Plans	17
Other Considerations	18
Issues and Concerns Raised During Scoping	19
Public, Agency, and Internal Scoping Process	19
Additional Public and Agency Comment and Input after Scoping	19
Scoping Issues and Concerns	19
Impact Topics Analyzed in this DEIS/EIR.....	20
Land Use	20
Geologic Resources	20
Soil Resources	21
Air Resources	21
Water Resources – Hydraulics and Hydrologic Processes	21
Water Resources – Water Salinity and Water Quality	22
Vegetation Resources	22
Fish and Wildlife Resources	23
Cultural Resources	23
Public Health and Safety	23
Public Services	24
Visitor and Resident Experience	24
Socioeconomics	25
Park Management and Operations	25
Impact Topics Dismissed from Further Assessment	25
Unique Ecosystems, Biosphere Reserves, World Heritage Sites	25
Environmental Justice in Minority and Low Income Populations	25
Tribal Land Use and Sacred Sites	26
Energy Resources	26
Long-Term Management of Resources and Land/Resource Productivity	26

CHAPTER 2: ALTERNATIVES, INCLUDING THE PREFERRED ALTERNATIVE

Overview of Alternatives	27
Project Planning and Alternatives Development Process	27
Alternatives	29
Detailed Project Area Description	31
Existing or Baseline Conditions	34
No Action Alternative, including Actions Common to All Alternatives	36
Restoration and Management Actions Common to All Alternatives	37
Mitigation/Restoration and Management Actions Unique to the No Action Alternative	41
Public Access Unique to the No Action Alternative	42
Construction	42

CONTENTS

Alternative A – Limited Restoration of the Giacomini Ranch East Pasture Only with Expanded Public Access, Including Culverted Earthen Fill Trail on Eastern Perimeter, Including Actions Common to All Action Alternatives	43
Restoration	44
Management	46
Public Access.....	49
Construction	52
Alternative B – Moderate Restoration of the Giacomini Ranch East Pasture and Limited Restoration of the West Pasture with Expanded Public Access, Including Boardwalk Trail on Eastern Perimeter	55
Restoration	55
Management	63
Public Access.....	64
Construction	65
Alternative C (Preferred Alternative) – Full Restoration of the Giacomini Ranch East and West Pastures and Restoration of Olema Marsh, with Moderate Public Access	66
Restoration	66
Management	73
Public Access.....	74
Construction	75
Alternative D (Environmentally Preferred Alternative) – Extensive Restoration of the Giacomini Ranch East Pasture, Full Restoration of the West Pasture, and Restoration of Olema Marsh with Limited Public Access	76
Restoration	77
Management	80
Public Access.....	80
Construction	84
Alternative or Alternative Components Considered, but Not Analyzed Further	85
Alternative or Alternative Components Subjected to Additional Analysis to Determine Feasibility Prior to Elimination from Further Analysis	87
Eliminated Alternatives – Public Access	88
Eliminated Alternatives-Restoration: Olema Marsh	89
Impact Avoidance and Mitigation Measures.....	90
Engineering Geologic/Geotechnical Measures	90
Design and Construction Commitments	90
Measures to Protect Water Quality.....	91
Measures to Protect Wildlife.....	91
Measures to Protect Vegetation and Prevent the Introduction and Spread of Invasive Plant Species	92
Measures to Protect Wetland Resources	92
Spill Prevention and Response Plan.....	92
Measures to Protect Natural Quiet and Soundscapes	93
Measures to Protect Air Quality	93
Measures to Address Effects on Traffic	94
Measures to Protect Recreational Use.....	94
Measures to Protect Cultural Resources	94
The Environmentally Preferred Alternative	94
Sections 101(b) and 102(1) of NEPA	95
The Preferred Alternative	96

CHAPTER 3: AFFECTED ENVIRONMENT

Introduction	127
Project Setting.....	128
Regional and Park Context	128
Park and Project Area History	128
Regional and Project Area Climate.....	130
Land Use and Planning	131

General Land Use and Planning	131
Agricultural Land Use	139
Geologic Resources	142
Geologic Resources within the Region and Project Area	142
Topographic Resources within the Region and Project Area	145
Geologic Resource Issues - Geologic Hazards	149
Geologic Resources and Wetland Functionality.....	156
Soil Resources	157
Soil Resources within the Project Area	157
Soil Resource Issues - Prime and Unique Farmland Soils.....	159
Soil Resource Issues - Sediment Quality and Contamination.....	162
Soil Resources and Wetland Functionality	165
Air Resources	166
Air Resource Issues - Air Quality	166
Air Resource Issues – Noise and Soundscapes.....	170
Water Resources – Hydraulics and Hydrologic Processes	171
Regulatory and Policy Setting	172
Water Resources – Tidal and Freshwater Flows.....	172
Water Resources – Floodplains.....	191
Water Resources - Sediment Transport Dynamics.....	194
Hydrologic Processes and Wetland Functionality	199
Water Resources – Water Salinity and Water Quality	200
Water Salinity	200
Water Quality	205
Water Salinity and Quality and Wetland Functionality	218
Vegetation Resources.....	219
Regional Setting	219
Regulatory and Policy Setting	220
Vegetation Communities	221
Vegetation Communities of Special Significance – Wetlands and Riparian Areas	232
Vegetation Communities of Special Significance – CNDB Natural Communities	243
Special Status Plant Species	244
Threats from Non-Native and Invasive Plant Species	249
Vegetation Resources and Wetland Functionality	251
Fish and Wildlife Resources	252
Fish and Wildlife Resources Setting	252
Regulatory and Policy Setting	253
Fish and Wildlife Habitats	253
Fish and Wildlife Habitats of Special Significance	261
General Fish and Wildlife Use	263
Special Status Fish and Wildlife Species	273
Threats from Non-Native and Invasive Wildlife Species	284
Fish and Wildlife Resources and Wetland Functionality	286
Cultural Resources.....	288
Background and Regulatory and Policy Setting	288
Tribal Lands	289
Archeological Resources.....	289
Cultural Landscapes and Features	289
Historic Structures	290
Public Health and Safety.....	291
Flooding and Public Safety	291
Disease and Public Health	297
Public Services	300
Municipal Water Supply	300
Traffic and Transportation	309
Visitor and Resident Experience – Public Access Resources	315
Regional and Park Setting	316
Regulatory and Policy Setting	316
Public Access Opportunities within the Project Area and Vicinity	318

CONTENTS

Visitor and Resident Experience – Visual Resources and Viewsheds	321
Background and Regulatory and Policy Setting	321
Visual Resources and Viewsheds in the Project Area and Immediate Vicinity	322
Socioeconomic Resources.....	328
Park Operations and Management Resources.....	328
Background	328
Park Operation and Management Resources.....	329
Project Operation and Management Resources	330

CHAPTER 4: ENVIRONMENTAL CONSEQUENCES

Introduction	331
General Methodology for Assessing Impacts	332
Baseline Conditions	332
Nature of Impacts	332
Intensity of Impacts	332
Impairment.....	335
Mitigation	336
Duration of Impacts	336
Type of Impacts	336
Context of Impacts	337
Projects Considered in Cumulative Impacts Analysis.....	337
Resource-Specific Assessment of Impacts.....	340
Land Use and Planning – General Land Use.....	340
Land Use and Planning – Agricultural Land Use.....	349
Geologic Resources	357
Soil Resources	369
Air Resources – Air Quality	383
Air Resources - Noise and Soundscapes	395
Water Resources – Hydraulics and Hydrologic Processes	410
Water Resources –Water Quality	430
Vegetation Resources	451
Fish and Wildlife Resources	481
Cultural Resources	546
Public Health and Safety – Flooding	552
Public Health and Safety – Disease and Public Health	563
Public Services – Municipal Water Supply and Distribution.....	575
Public Services - Traffic and Transportation.....	583
Visitor and Resident Experience – Public Access Resources.....	597
Visitor and Resident Experience – Visual Resources and Viewsheds	608
Socioeconomics	621
Park Management and Operations	626
Other Impact Analyses Mandated by DO-12 and CEQA	634
Relationship between Short-Term Uses of the Environment and Maintenance and Enhancement of Long-Term Productivity	634
Irreversible or Irretrievable Commitment of Natural or Depletable Resources.....	636
Avoidable and Unavoidable Major or Significant Adverse Impacts	638
Growth-Inducing Impacts.....	639

CHAPTER 5: CONSULTATION AND COORDINATION

Introduction	641
Project Planning and Scoping	641
Identification of Lead and Other Interested Agencies	641
Public Scoping	641
Additional Information Gathering Efforts	642
Agency Involvement and Scoping	644
Summary of Public and Agency Comments	645

Compliance Status	646
Federal Regulations	646
State and Local Legislation, Policies, and Plans	648
List of Preparers	650
List of Agencies and Organizations to Whom Notices of the Environmental Impact	
Statement/Environmental Impact Report are Being Sent	652
Federal Agencies	652
Federal Advisory Groups.....	652
Elected Officials.....	652
State Agencies	652
Regional, County, and Municipal Agencies	652
Non-Governmental Organizations, Non-Profit Organizations, etc.....	652
Libraries.....	653
Literature Cited	655
Index.....	677

List of Figures

Figure 1. Giacomini Wetland Restoration Project Vicinity Map	3
Figure 2. Giacomini Wetland Restoration Project Area	4
Figure 3. Existing Conditions and Facilities	32
Figure 4. No Action Alternative	39
Figure 5. No Action Alternative – Public Access	40
Figure 6. Alternative A – Restoration and Management.....	47
Figure 7. Alternative A – Public Access.....	51
Figure 8. Example of prefabricated bridge structure (LandPeople 2005)	52
Figure 9. Total Excavation and On-Site and Local and Regional Off-Site Disposal.....	53
Figure 10. Potential Sediment Disposal Quarry Locations	54
Figure 11. Alternative B – Restoration and Management.....	57
Figure 12. Alternative B – Public Access	59
Figure 13. LandPeople Trail Graphic.....	60
Figure 14. Alternative C – Restoration and Management.....	67
Figure 15. Alternative C – Public Access	69
Figure 16. Alternative D – Restoration and Management.....	81
Figure 17. Alternative D – Pubic Access.....	83
Figure 18. County Land Use Designations.....	135
Figure 19. County Zoning	136
Figure 20. Local Geology	144
Figure 21. Historic Map of Southern Tomales Bay	147
Figure 22. Intertidal Elevations	150
Figure 23. Earthquake Hazards	153
Figure 24. Liquefaction Susceptibility.....	155
Figure 25. Soil Types	158
Figure 26. Farmland Soil Type	161
Figure 27. Hydrologic Sources	173
Figure 28. Topography and Bathymetry of Lagunitas Creek Channel Banks and Bottom	178
Figure 29. Lagunitas Creek Daily Average Flows	203
Figure 30. Vegetation Communities.....	222
Figure 31. Native and Non-Native Vegetation Communities	225
Figure 32. Corps Jurisdictional Wetlands and Waters.....	235
Figure 33. Wetlands Potentially Subject to CCC Oversight.....	238
Figure 34. Riparian and Buffer Habitat	241
Figure 35. Special Status Plant Occurrences	246
Figure 36. Wildlife Habitat.....	256
Figure 37. Locations of NMWD Wells and Pipelines	302
Figure 38. Existing Conditions – Public Access.....	320
Figure 39. Viewshed Analysis Locations.....	323
